

MOVING WASTEWATER UPHILL IS AS EASY AS  
**SYSTEM 1 , SYSTEM 2 , SYSTEM 3**

Once upon a time, building below the county sewage line was out of the question. Pumping uphill was either impossible or just too expensive.

Now, small sewage lift stations from **Pacific Liquid** are easy to install, reliable, and economical.

Unlike above ground pumps, our submersible sewage pumps are quiet, energy efficient, out of sight, and maintenance free.

Everything is included. Just connect the piping and plug it into a standard 115V receptacle.

Whether it's a new bathroom, small apartment, large house, or even a commercial property our **SYSTEM 's 1, 2, and 3** can handle all of your sewage lift requirements.

**PACIFIC LIQUID & AIR SYSTEMS**  
**PUMPS • MOTORS • CONTROLS**
